

*Bakers Waste Services Ltd are a Regional waste management provider; the scope of activities for ISO14001 covers: **Administration functions and vehicle maintenance activities at (Head Office) 70 Boston Rd, Leicester, LE4 1AW***

We are committed to embedding continual environmental improvement into our business model in order to enhance and protect the natural environment from harm and degradation.

We will endeavour to improve our environmental performance by adopting techniques and equipment that is focused on pollution prevention and protection of the environment by reducing/eliminating negative environmental impacts from our business activities.

Environmental objectives & targets will be set on an annual basis and their likelihood of achievement reviewed. The responsibility for this policy lies with the Managing Director but may be delegated to Finance Director/Operations Director (as applicable) to oversee.

The responsibility of implementation for a workable Environmental Management System (EMS) has been assigned to QSHE Department.

Our Commitment to the Environment

Boston Road administration function and workshop (garage) are currently covered within the scope of iso14001

To continue to manage our environmental aspects, impacts and risks we have committed to:

- Maintain a workable Environmental Management System (EMS) to the requirements of ISO 14001.
- To achieve objectives and targets set for sites within its scope, in order to improve site efficiency and environmental performance. In addition, to ensure the continued protection of the environment and other specific commitments relevant to the context of the organisation.
- To continually review, and where required, introduce control measures in order to improve environmental performance.
- Ensuring compliance with all relevant environmental legislation, regulations and other compliance obligations as a minimum.
- Our annual objectives are covered within a separate document ref 0272
